- Fluent Communication
- Remote Work & Online Collaboration
- Time Management
- Accepting Feedback
- Creative and Critical Thinking

Projects

Mint App Clone

The Mint is a broadly respected business news application, which has a varied audience across the globe.

Features:

- A user can sign in or sign up.
- A user can scroll and read the current business news articles.
- Allows users to BookMark a news article.
- Allows users to share a news article with his/her contacts.
- Allows access to search for news articles, based on users' interest.

Tech Stack - Android Studio | Rest API | PostMan | RoomDB | MVVM Architecture

Areas of Responsibility:

- Created the structure of the app, using MVVM Architecture and Room Db.
- Used Retrofit library to call API, and populated data using POJO classes generated from API response.
- Implemented the bookmark and history features using Room Db.
- Implemented the search feature using an API call and populating the data directly.

Completed the project by a total collaboration of 3 team members, in a span of 6 days.

JioSaavn App Clone ↴

The aim was to replicate JioSaavn, an online music streaming service and a distributor of Bollywood/ other regional Indian music across the globe.

Features:

- A user can sign in or sign up.
- Allows access to different types of regional music and podcasts.
- Has features to browse and search based on user requirements.

Tech Stack - Android Studio | Rest API | PostMan | Services.

Areas of Responsibility:

- Created the entire app structure.
- Used Retrofit to call music API, to populate the screen's and implemented service to play music.

A solo project completed in a span of 5 days.

OLX-India App Clone ↴

Olx-India is part of the OnLine exchange also known as OLX Group, a Dutch-domiciled online marketplace. It provides an interface for a user to buy/sell their products.

Features:

- Allows users to sign in and sign up, along with a location feature.
- Shows current ads along with buyers and sellers along with the option to post advertisements.
- Has a chat/contact feature, which enables the buyers and sellers to interact with each other.

Tech Stack - Android Studio | Rest API | PostMan.

Areas of Responsibility:

- Created the menu mapping through bottom navigation and fragments.
- Took responsibility for the design of the whole UI of the application.

The project was done with the help of a collaborative team of 3, in a span of 4 days.

🎓 Education

Android Application Development Course, Masai School

12/2020 – present

**Bachelors in Technology (Computer Science & Engineering),
Christu Jyothi Institute of Technology and Science (JNTUH))**

2013 – 2017

Intermediate (M.P.C), Sri Chaitanya Junior Kalasala

2011 – 2013

🎸 Interests

Sports (Football, BasketBall) • Photography • Cooking • Anime (Japanese Art) • Travelling

🏅 Activities and Achievements

College football team (C.J.I.T), Captain 2015- 2017
